Globe was presented by HTC. Dated 6/20/36. "It will be placed in the Farnsworth room of the Widener library at Harvard."

5-Foot World Globe Presented Harvard [Clip p4]

"...The President, Mr. George A. Lyon, presented a globe of the world to Harvard University as a Tercentenary Gift from the club."

Minutes of 241st meeting, 19 May 1936. [Min1 p39]

WILL GIVE HARVARD A BIG GLOBE

Harvard Travellers'
Club Presentation
May 19

At its annual dinner on May 19 the Harvard Travellers' Club will present to Harvard University, as a tercentenary gift, a World globe. George A. Lyon, president of the club, will make the presentation to Jerome D. Green, director of the tercentenary celebration.

FIVE FEET IN HEIGHT

The globe is over two feet in diameter and stands about five feet in height. It is said to be the best for its size in the world. It is prepared by Professor Dr. Hermann Haack at the Geographical Institute of Justus Perthes in Gotha, Germany. It is prepared by one of the best German cartographers in the oldest and most renowned cartographical institute in Germany.

The globe shows altitude tints in the conventional colors and is supplemented with hachure lines for designating mountains and small land forms which would fall between the contour lines which mark the altitude tints. Cities, main railways, woods, steamer routes, cable lines and boundaries are shown distinctly, but not obscuring the physical details. The depth of the sea is shown by five tints and the ocean currents are marked according to their velocity.

For Farnsworth Room

The globe is mounted on a brass half meridian, has a mahogany base and an inlaid compass.

The globe is to be placed in the Farnsworth room of the Harvard Library.

This incident calls attention to the organization known as the Harvard Travellers' Club, a group of something over 300 men interested in travel, exploration, etc. Its name is somewhat of a misnomer, as its membership is not restricted to undergraduates or graduates of Harvard College or University.

Thirty Men at Meeting

The reason for its name might be termed historical. Nearly 34 years ago Harvard's eminent geographer, Professor William Morris Davis, in association with Copley Amory, Roland B. Dixon, James H. Kidder, and the late Archibald Cary Coolidge, invited Harvard men and others in this vicinity who might be interested in "promoting intelligent travel and exploration," to meet together on Nov. 18, 1902, in the assembly room of the Harvard Union at Cambridge, to consider the formation of a Harvard Traveller's Club. Thirty men responded to the call.

Professor Davis outlined his plans for the organization of the club, and explained its proposed objects. The idea met with enthusiastic reception. Professor Davis was elected the first president and Dr. John C. Phillips was chosen the first secretary.

Today it is the outstanding organization connected with Boston representing such interests as exploration and travel.

Meets Monthly

The club holds monthly meetings between October and May. Includes

FIVE FEET IN HEIGHT

Cities, main railways, woods, steamer routes, cable lines and boundaries are shown distinctly, but not obscuring the physical details. The depth of the sea is shown by five tints and the ocean currents are marked according to their velocity.

For Farnsworth Room

The globe is mounted on a brass half meridian, has a mahogany base and an inlaid compass.

The globe is to be placed in the Farnsworth room of the Harvard Library.

This incident calls attention to the organization known as the Harvard Travellers' Club, a group of something over 300 men interested in travel, exploration, etc.—Its name is somewhat of a misnomer, as its membership is not restricted to undergraduates or graduates of Harvard College or University.

Thirty Men at Meeting

The reason for its name might be termed historical. Nearly 34 years ago Harvard's eminent geographer, Professor William Morris Davis, in association with Copley Amory, Roland B. Dixon, James H. Kidder, and the late Archibald Cary Coolidge, invited Harvard men and others in this vicinity who might be interested in "promoting intelligent travel and exploration," to meet together on Nov. 15, 1902, in the assembly room of the Harvard Union at Cambridge, to consider the formation of a Harvard Traveller's Club. Thirty men responded to the call.

Professor Davis outlined his plans for the organization of the club, and explained its proposed objects. The idea met with enthusiastic reception. Professor Davis was elected the first president and Dr. John C. Phillips was chosen the first secretary.

Today it is the outstanding organization connected with Boston representing such interests as exploration and travel.

Meets Monthly

The club holds monthly meetings between October and May, inclusive, each year, at which the members meet for an informal supper, followed by a talk or talks by outstanding men in their field of travel. The evening is capped by refreshments and more informal talk. It would be inappropriate to here name all of the famous men who have spoken at the meeting, but a few names will suffice to indicate their interesting character. In 1903 Admiral (then a commander) Peary spoke. Other speakers have been: President Theodore Roosevelt, Vilhjalmur Stefansson and Nördenskjöld, the famous Arctic explorers; Charles W. Eliot, then president of Harvard University; Hon. W. Cameron Forbes, Captain Robert A. Bartlett, Colonel Sir Francis Younghusband of Tibetan fame, Dr. Sven Hedin, the dean of Asiatic explorers; Dr. A. Hamilton Rice, the explorer of the Amazon; Anthony Fiala, Isaiah Bowman, Sir Harry Johnston, Brigadier-General Adolphus W. Greeley, Hiram Bingham, Carl Akeley of African fame, Dr. Robert Cushman Murphy, Major-General Sir Percy Sykes; Dr. Thomas Barbour, Alan J. Villiers, Commander George M. Dyott and Berttram Thomas of Arabia, some of them guests, many of them members of the club.

With Moving Pictures

At present the talks are generally accompanied by moving pictures and the projecting of still pictures.

The club has held three exhibitions: Horticultural Hall, March 18, 1905; Copley Hall, April 2 and 4, 1911; Copley Hall, April 6, 7, and 8, 1914, where appropriate material relating to travel was shown.

TRAVELERS CLUB'S GIFT TO HARVARD

Handsome Globe Will Be Placed in Library's Farnsworth Room

At the annual dinner May 19, the Harvard Travelers Club will present to Harvard University, as a tercentenary gift, a world globe. George A. Lyon, president of the club, will make the presentation to Jerome D. Green, director of the tercentenary celebration, on behalf of the university.

The globe is over two feet in diameter and stands about five feet in height. It is prepared by Prof Dr Herman Haack at the Geographical Institute of Justus Perthes in Gotha, Ger, the oldest and most renowned cartographical institute in Germany.

The globe shows altitude tints in the conventional colors and is supplemented with hachure lines for designating mountains and small land forms which would fall between the contour lines which mark the altitude tints. Cities, main railways, woods, steamer routes, cable lines and boundaries are shown distinctly, but not obscuring the physical details. The depth of the sea is shown by five tints and the ocean currents are marked according to their velocity.

The globe is mounted on a brass half meridian, has a mahogany base and an inlaid compass.

The globe is to be placed in the Farnsworth Room of the Harvard Library.

World-Famous Speakers

The Harvard Travelers' Club is a group of something over 300 men interested in travel, exploration, etc. Its name is somewhat of a misnomer, as its membership is not restricted to undergraduates or graduates of Harvard College or University.

Nearly 34 years ago Harvard's eminent geographer, Prof William Morris Davis, in association with Copley Amory, Roland B. Dixon, James H. Kidder and the late Archibald Cary Coolidge, invited Harvard men and others in this vicinity who might be interested in "promoting intelligent travel and exploration" to meet Nov 15, 1902, in the assembly room of the Harvard Union at Cambridge to consider the formation of a Harvard Travelers' Club. Thirty men responded to the call. Prof Davis outlined his plans for the organization of the club, and the idea met with enthusiastic reception. Prof Davis was elected the first president and Dr John C. Phillips the first secretary.

The club holds monthly meetings between October and May, inclusive, each year, at which the members meet for an informal supper, followed by a talk or talks by out-

feet in height. It is prepared by Prof Dr Herman Haack at the Geographical Institute of Justus Perthes in Gotha, Ger, the oldest and most renowned cartographical institute in Germany.

The globe shows altitude tints in the conventional colors and is supplemented with hachure lines for designating mountains and small land forms which would fall between the contour lines which mark the altitude tints. Dear Kay:

I have your letter of April 24 with a copy of Harold's letter attached.

*1000 cash
200 annual
10 mitty
5 deficit
35 surplus*

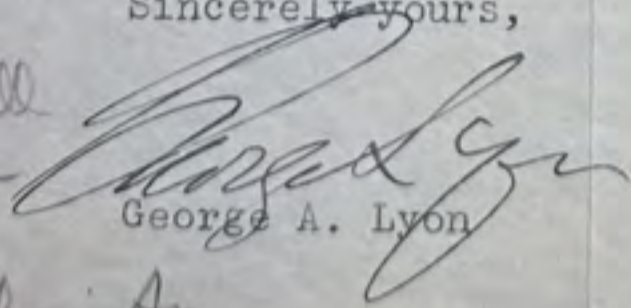

I had already spoken about the Club making a Tercentenary gift to the University. I don't think we are under any obligation to do so inasmuch as the Club is not connected with the University in any way, but I think that I told him that it seemed to me a proper and gracious thing to do, provided our treasury is in a position to do so. It usually is not in such a position but I don't know how we stand now.

I think it might be a good plan to call a meeting of the Council soon and if it would be convenient to come out to my house some evening for such a meeting that would please me. Perhaps you would all dine with me. On the other hand, if it is more convenient to meet some where in town, that is perfectly satisfactory although not quite so convenient for me.

There are a number of things to be discussed, among them is what the status of Hallam Movius is with respect to the Council. I do not believe that the matter was given consideration by the Nominating Committee. You will remember about it I know.

Sincerely yours,

*Professor of Cornell

Dear Mr. Howard:

Just before leaving for a few days' absence, Professor Blake told me of the generous intention of the Harvard Travellers Club to present to the Library a modern globe. I wish to assure that we would accept such a gift with real gratitude. It would be put in the Farnsworth Room, to replace a globe that is utterly out of date and considerably worn, and I assure you that in that room it will be seen and used appreciatively by many students.

Yours sincerely,

Alfred C. Potter

Dear Mr. Howard:

This is the description of the German globe, as desired:

~~A sixty-four centimeter globe, 1:20,000,000, physical and political; prepared by Prof. Dr. Hermann Haack at the Geographical Institute of Justus Perthes in Gotha, Germany. This globe is about the best for its size which can be bought at the present time. It is prepared by one of the German cartographers in the oldest and most renowned cartographical institute in Germany.~~

A The globe shows altitude tints in the conventional colors and is supplemented with hachure lines for designating mountains and small land forms which would fall between the contour lines which mark ^{the} altitude tints. Cities, main railways, woods, steamer routes, cable lines and boundaries are shown distinctly, but not obscuring the physical details. The depth of the sea is shown by five tints and the ocean currents are marked according to their velocity.

The globe is mounted on a ^{brass} half meridian, has a mahogany base and an inlaid compass. The original globe was prepared in 1930, but is brought up to date in new editions every few years. (Our globe is 1930; you will probably receive a later edition.)

I hope this description will answer your question, and I think this globe will make a very appropriate and welcome present to the University.

Sincerely yours

Handwritten signature of Erwin Raisz.

My dear President Conant:

At a meeting of the Council of the Harvard Travellers Club held last week it was voted to make a gift to Harvard University in recognition of its 300th Anniversary and as an evidence of our good will.

The presentation will be made at the Harvard Club of Boston at a dinner on Tuesday night, May 19, at 6:45 P.M., prior to our Annual Meeting, and on behalf of the Club I am writing to invite you to dine with us at that time.

We shall feel greatly honored and greatly pleased to have you as our guest and hope you may find it possible to accept.

Very sincerely yours,

George A. Lyon

Dear Mr. Potter:

This will acknowledge receipt of your letter of
May 12th.

The Council of the Harvard Travellers Club have
authorized the purchase and presentation as a Tercentenary
gift of a Globe and we are much pleased to hear that it will
be welcome and will be put in the Farnsworth Room.

I understand that the Globe is to be a German Globe
prepared by Dr. Herman Haack at the Geographical Institute
of Justus Perthes in Gotha, Germany, and said to be the best
of its size obtainable. I believe that one of these Globes
is in the Library of the Harvard Institute of Geographical
Exploration but that ours will be a more modern edition.

Thanking you for your kind letter, I am,

Sincerely yours,

John K. Howard, Secretary

Dear Beany:

The Harvard Travellers Club, of which I am Secretary and Treasurer, is having its Annual Dinner on Tuesday, May 19th and is presenting at that time a Tercentenary gift to Harvard University. I am enclosing a memorandum which describes what is going to happen, the gift and tells something of the Harvard Travellers Club. I am anxious to get some publicity in connection with this event and particularly anxious to have something favorable said about the Club in general.

I hope you will find there is sufficient news interest in this matter to do something for us in the Herald and Traveler.

Sincerely yours,

Dear Dr. Raisz:

Would you be so kind as to undertake, for the Harvard Travellers Club, the ordering of the globe which it is to present to Harvard University as a Tercentenary Gift? As you perhaps know we want to keep the expense down to \$200, if possible. In connection with the most fitting stand for the globe would you be so kind as to talk this matter over with Mr. Robert Blake of the Harvard Library. As you are more familiar with the globe and the stand that will be ordered I would be much pleased if you would undertake to prepare a design of the plate which is to be attached somewhere to the stand stating that the globe is presented by the Harvard Travellers Club to the Harvard University as a Tercentenary Gift.

The officers and Council of the Harvard Travellers Club would be very thankful if you would undertake to take care of these matters.

Sincerely yours,

John K. Howard

Dear Mr. Howard:

I saw Mr. Blake about the most fitting stand for the globe, and he thinks -- as I do -- that the present stand which is supplied with the globe fits the best.

About three weeks ago I have inquired about the price of the globe, but I have no answer yet. As soon as the answer comes I will order it, if the price is satisfactory.

I will be glad to prepare the design for a plaque, which would be a glass plate, two and a half by ten inches, attached to the foot of the globe, but I would appreciate it if you would write out the text of it.

Sincerely yours

Dear Kay:

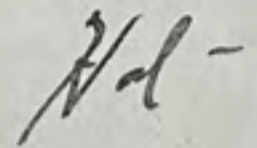

I favor a short wording on the tablet to be placed on the stand of the globe because the space is so limited. I think we should have a fascimile of the club seal under or over the inscription. When you have decided on the wording, I am sure that Reisz can prepare a pleasing design. This should be approved so that the word can be completed by the big event the middle of September. My wordings are:

"To Harvard University on its 300th birthday from The Harvard Traveller's Club." or

"This globe is presented to Harvard University on (the occasion of, or in honor of) its 300th birthday by the Harvard Traveller's Club".

I shall be away in August but hope that you may get somewhere with this.

As ever,

H. J. Coolidge, Jr.

Institute of Geographical Exploration
2 Divinity Avenue
Cambridge, Mass.

Gentlemen:

We are pleased to report to you that the shipment consisting of one case containing a globe has been released by the Customs free of duty. Charges accrued amount to \$9.05, which sum we have taken forward against the shipment through the carriers, New York, New Haven and Hartford Railroad Company.

Shipment is leaving New York and same should reach you within the next few days. The foreign shipper's invoice and also two letters addressed to you by them together with insurance certificate are herewith attached.

We trust that shipment will reach you in good time and condition and beg to remain,

Very truly yours,

LANSSEN-NAEVE CORP.

Cambridge, Mass.

Dear Dr. Raisz:

I received this morning letter and bill from Lansen-Naeve Corp. covering customs brokerage fees on the Globe from Germany.

Enclosed please find check to your order for \$9.05. I have made it payable to your order as undoubtedly the express company delivering the Globe will expect to collect this amount at the Institute.

Sincerely yours,

John K. Howard, Treasurer

Cambridge, Mass.

Dear Dr. Raisz:

I am enclosing check for \$1.50 payable to John Spinney as per request in your letter of recent date for handling the Globe.

I was much interested to hear you say that there were many elk in the high Uintas. Could you give me any more information as, for instance, what town to reach the elk country from and anybody there to whom I could write who would be able to give me more detailed information?

Sincerely yours,

John K. Howard
