

COMMANDER DONALD B. MacMILLAN

- Veteran Arctic Explorer
- Assistant on Peary North Pole Expedition
- Commander of 28 Expeditions to the Arctic
- Awarded Special Congressional Medal for Work on the Polar Sea
- Holder of Elisha Kent Kane Gold Medal for Daring Exploration and Scientific Research
- Awarded Special Gold Medal from Chicago Geographic Society for Geographic and Scientific Achievements.

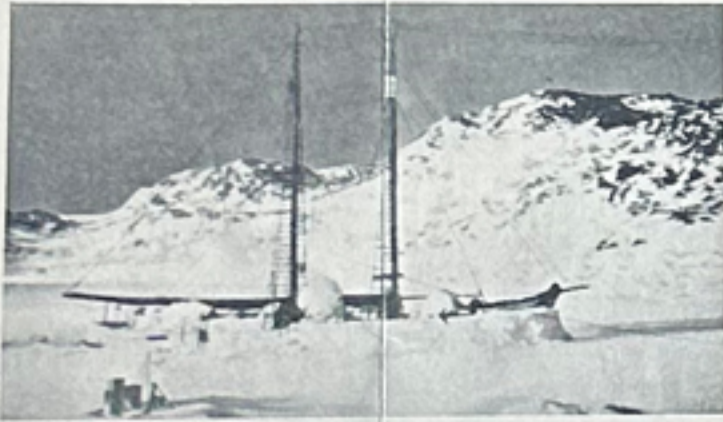

IN A NEW AND TIMELY LECTURE,
WITH NATURAL COLOR MOVIES

"NORTH – FAR NORTH WITH MacMILLAN" LABRADOR, BAFFIN LAND, AND GREENLAND

"If you want an interesting speaker, a man with unusual pictures, don't miss Commander MacMillan! Every organization in the country should book him. His new pictures are marvelous. And MacMillan, one of the foremost living explorers, is a grand story teller, and one of the most fascinating personalities on the platform. I would go many miles to hear MacMillan any day."

LOWELL THOMAS

MacMillan's Arctic Ship, the BOWDOIN, frozen in for eleven months at Refuge Harbor, North Greenland.

"MacMillan's Greenland and Baffin Land show was a smash hit. Many of our patrons thought it the best lecture of our entire history. The color pictures are vivid, exciting, varied—full of fun and human interest. And no one excels MacMillan as a platform personality."

World Adventure Series, Detroit, Michigan

"Commander MacMillan won our top vote for the finest lecture in our 1949 series. We want him back this season."

'Round the World Adventure Series, Cleveland, Ohio

"Donald MacMillan has spoken to our audiences many times. We admire his beautiful natural color motion pictures, but far more we admire the man for the remarkable work that he has done for science, for the Eskimos, for the boys he has trained, and for his country."

The Academy of Science and Art, Pittsburgh, Pa.

Commander Donald B. MacMillan

Commander Donald B. MacMillan, explorer, teacher, scientist, author, is well known to the American public through his 41 years of Arctic work. Since serving as assistant to Admiral Peary on his successful North Pole expedition, he has commanded many highly important northern expeditions which have added infinitely to the knowledge of this vast hitherto unknown part of the globe.

As Captain of his own ship, the BOWDOIN, he has travelled over 250,000 miles of Arctic waters; also thousands of miles by dog team and by plane. He has extensively explored Labrador, Ungava Bay, Foxe Basin, Baffin Island, Ellesmere Land, Greenland, Hudson Bay, and the Polar Sea.

During World War II he was selected by the United States Government as an "Expert in Arctic Geography." His knowledge of that section of the world proved invaluable to his country.

Commander MacMillan's achievements have been recognized by leading geographical and scientific societies in this country and abroad. He is a Life Member of the National Geographic Society, also a fellow in the American Geographical Society and in the Royal Geographical Society of Great Britain. Two colleges have conferred upon him the honorary degree of Doctor of Science. He was elected to the Flor-

ence Nightingale Institute of Honorables because "he has given special service to humanity by long and successful endeavors to improve the physical and mental condition of the Eskimos." In 1927 he was awarded the Elisha Kent Kane Gold Medal for "daring exploration and scientific research," in 1944 a Special Congressional Medal for his work on the Polar Sea, and in 1949 a Special Gold Medal from the Chicago Geographic Society for geographical and scientific achievement.

In 1929 he built and equipped the MacMillan-Moravian Eskimo School at Nain, Labrador, which he and Mrs. MacMillan continue to maintain, at the present time, caring for seventy Eskimo children.

He is the author of *Four Years in the White North, Etah and Beyond, How Peary Reached the Pole, Kah-da, the Life of an Eskimo Boy, Eskimo Place Names and Aid to Conversation*. Mrs. MacMillan is the author of *Green Seas and White Ice* and *Etuk, The Eskimo Hunter*.

Under the auspices of his Alma Mater, Bowdoin College, Commander and Mrs. MacMillan have recently returned from beyond the Arctic Circle—his 28th expedition. Their new natural color motion pictures of icebergs, birds, walrus, and polar bears are truly remarkable.

"He held the audience enthralled for nearly two hours. His photographs, both stills and movies, are superb. He is in my estimation one of the best lecturers on the American platform."

Clyde Fisher, Ph.D., LL.D.

(Staff of the American Museum of Natural History)

"MacMillan's Greenland and Baffin Land show was a smash hit on our 1946-47 program. Many of our patrons thought it the best lecture of our entire history. The color pictures are vivid, exciting, varied — full of fun and human interest. And no one excels MacMillan as a platform personality. Of course we want him back for next season."

World Adventure Series, Detroit, Michigan

"I speak for myself and the Goodwyn Institute audience when I say we consider MacMillan the greatest on the platform today."

Goodwyn Institute, Memphis, Tennessee

Commander Donald B. MacMillan

Commander Donald B. MacMillan, explorer, teacher, scientist, author, is well known to the American public through his 39 years of Arctic work. Since serving as assistant to Admiral Peary on his successful North Pole expedition, he has commanded many highly important northern expeditions which have added infinitely to the knowledge of this vast hitherto unknown part of the globe.

As Captain of his own ship, the BOWDOIN, he has travelled over 200,000 miles of Arctic waters; also thousands of miles by dog team and by plane. He has extensively explored Labrador, Ungava Bay, Foxe Basin, Baffin Island, Ellesmere Land, Greenland, and the Polar Sea.

During World War II he was selected by the United States Government as an "Expert in Arctic Geography." His knowledge of that section of the world proved invaluable to his country.

Commander MacMillan's achievements have been recognized by leading geographical and scientific societies in this country and abroad. He is a Life Member of the National Geographic Society, also a fellow in the American Geographical Society and in the Royal Geographical Society of Great Britain. Two col-

leges have conferred upon him the honorary degree of Doctor of Science. He was elected to the Florence Nightingale Institute of Honorables because "he has given special service to humanity by long and successful endeavors to improve the physical and mental condition of the Eskimos." In 1927 he was awarded the Elisha Kane Gold Medal for "daring exploration and scientific research." In 1944 he was awarded a Special Congressional Medal for his work on the Polar Sea.

In 1929 he built and equipped the MacMillan-Moravian Eskimo School at Nain, Labrador, which he and Mrs. MacMillan continue to maintain, at the present time, caring for seventy Eskimo children.

He is the author of *Four Years in the White North, Etah and Beyond, How Peary Reached the Pole, Kah-da, the Life of an Eskimo Boy, Eskimo Place Names and Aid to Conversation.*

Under the auspices of the Chicago Geographic Society and with students and scientists from ten different colleges, Commander and Mrs. MacMillan will sail in June for North Greenland to visit again the Polar Eskimos, with whom he has lived for six years. They will return with thousands of feet of natural color motion pictures of icebergs, glaciers, activities of the natives, and of birds and animal life.

Book MacMillan NOW for the
1947-48 season

Adm. MacMillan 92 Years Old

PROVINCETOWN — Admiral Donald B. MacMillan, now the only living member of the Admiral Peary Expedition to the North Pole in 1908-09, celebrated his 92nd birthday at his home here Thursday.

Among the many messages of congratulations were a card from President Johnson and a telegram from former President Eisenhower.
