

A VIS
'Goodbye
Winter, Hello
Spring'
Farmhouse
Dinner

On the First Day of Daylight Saving Time, Celebrate Spring with a Family-Style Farm Feast at East Hill Farm.

East Hill Farm

In 1765, the first resident of East Hill Farm lived in a dugout cave where nightly fires were kept burning to ward off mountain lions and wolves which roamed the area. Soon the resident married, built a log cabin, and cleared the land for farming to provide for a family of ten children. From its initial stages, East Hill Farm has been accustomed to many children.

In the mid 1800s the Inn took on its first paying guests who were farmers from nearby Massachusetts. These farmers would drive their cattle to the Inn's 180 acre property, to graze the pastureland for the summer, whereby the farmers, for a mere seventy five cents, would stay overnight at the inn, and enjoy two hearty meals, before returning home.

The early 1900s brought about a barn raising and new additions to the main inn. After World War II, cottages were built, and a swimming pool was added, where the emphasis of the Inn was to provide for a family getaway with activities appealing to both adults and children. The tradition has continued today under the ownership of Dave & Sally Adams where generations of vacationers from around the country enjoy the Inn's 150 acre working farm, with 65 tastefully decorated guest rooms, three swimming pools, a barnyard filled with animals, and a kitchen where homemade breads arouse the senses and bountiful meals emerge.

The Inn is open daily to provide guests with a relaxing hands-on farm experience, which typically includes milking the cows and goats from the rare breed livestock, churning butter, making cheese, petting the bunnies, and feeding the animals.

East Hill Farm is a family run business where traditions and family values are the foundation of its success.

East Hill Farm is located at 460 Monadnock Street, Troy. Proceed west from Jaffrey Center on Rt. 124 and turn left (south) at Monadnock Street. Watch for the sign on Rt. 124 just before the turn.
